Roshan's 1-2-3 World

Numbers • Shapes • Colors • English + Urdu

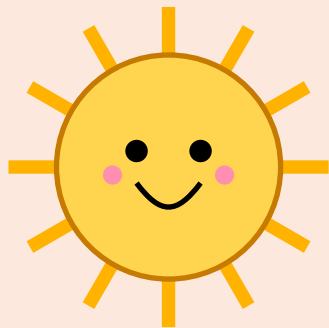

Numbers, shapes and colors — the world's bright alphabet.

Modern Day Syllabus • Playgroup • Book 2 of 7

Hello, sunshine!

I am Roshan — your number friend.

Today we will count, name and color the world.

First we'll count from 1 to 10.

Then we'll find 10 shapes everywhere.

Then we'll meet 12 happy colors!

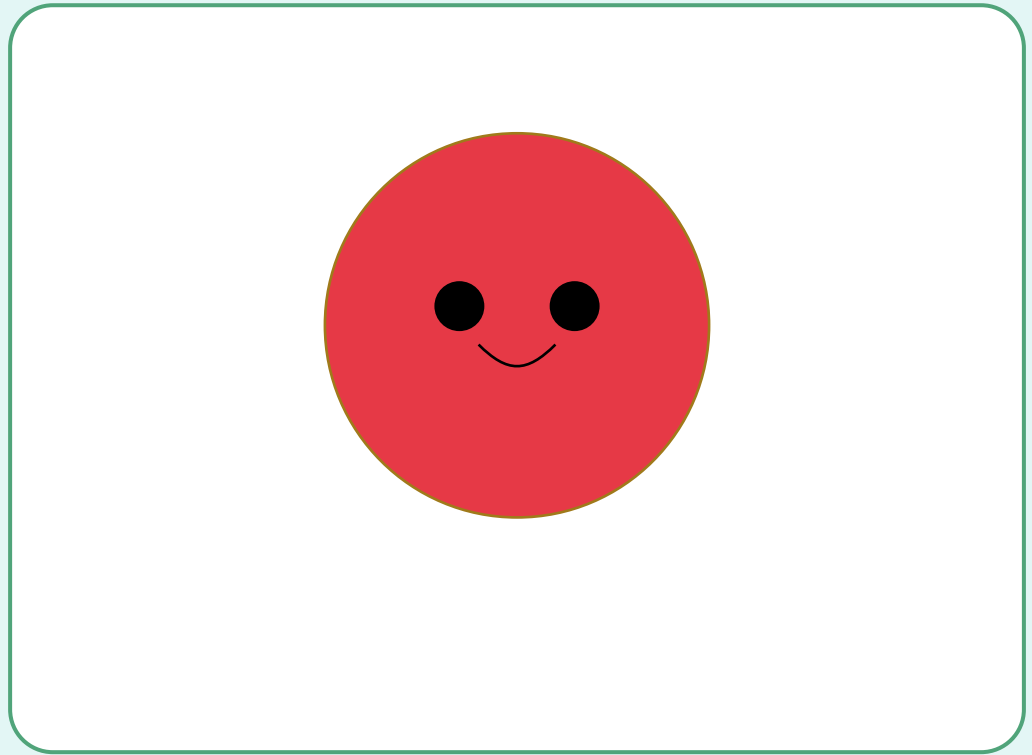

Hold up your fingers — let's begin.

How to use this book

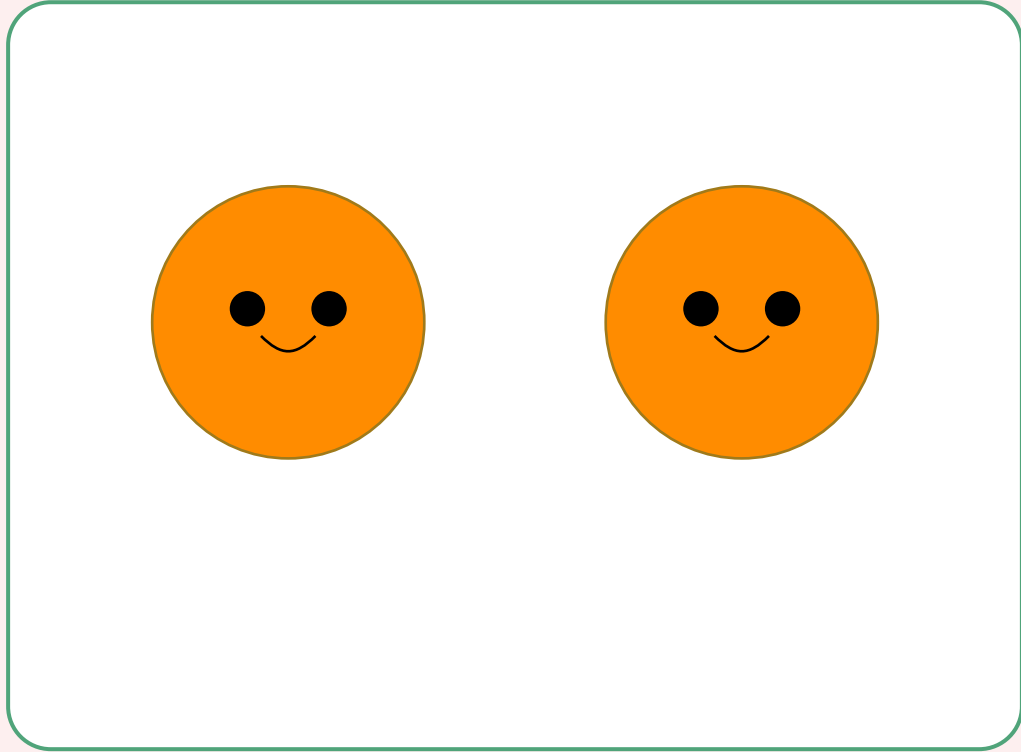

1. Count out loud. Touch each object as you say its number.
2. Hold up the same number of fingers. Wiggle them!
3. On shapes pages, look around the room — find that shape in real life.
4. On color pages, point to something nearby with that color.
5. Repeat favourite pages many times — children love repetition.
6. 5–7 minutes per sitting is perfect.

A short note for parents and teachers

What this book builds:

- counting 1-10 with bilingual EN+Urdu number names
- recognition of 10 essential shapes
- identification of 12 core colors

How to teach it well:

- always count touching the object — never from the air.
- on shapes, search the room together.
- point at real-world colors, not just the page.
